Rohit Ranvir

Summery

Highly motivated Java Developer and Web Developer with hands-on experience in building dynamic and responsive web applications. Skilled in Java, JavaScript, and database management (SQL). Strong problem-solving abilities, API integration expertise, and a proven track record in delivering high-performance solutions. Seeking to contribute to innovative software projects in a forward-thinking organization.

Professional Experience

Web Development Intern Zidio Development

(Jan 2025 – Present)

- Designed and developed responsive, user-friendly web interfaces
- Optimized website performance by 20% through code refactoring and API integration.
- Assisted in debugging and refining existing code for better functionality
- Writing clean, maintainable code and integrating APIs to improve website functionality.
- Collaborated with a cross-functional team to implement new features using HTML, CSS, JavaScript, and Bootstrap

Freelance Web Developer

(Aug 2024 - Dec 2024)

- Developed a responsive e-commerce website clone using HTML, CSS, and JavaScript
- Enhanced user engagement with interactive UI elements
- Optimized loading speed and ensured cross-browser compatibility

Projects

Password Generator || https://github.com/rohitranvir || https://rohit-password-generator.vercel.app/

- Developed a customizable password generator using HTML, CSS, and JavaScript
- Allows users to specify password requirements such as uppercase letters, lowercase letters, numbers, and symbols.
- Implemented random password generation logic ensuring strong and secure passwords.
- Designed an interactive UI with real-time updates based on user preferences.
- Improved user experience with a clean and responsive layout.

Task Management System UI | https://github.com/rohitranvir |

- Designed and developed an interactive Task Management System UI using HTML, CSS, and JavaScript
- Implemented a responsive layout to ensure a seamless experience across all devices
- Added features such as task creation, editing, deletion, and status tracking
- Used JavaScript for dynamic UI updates and interactivity
- Created a clean and user-friendly interface for better task organization.

Catch The Insect Game | https://github.com/rohitranvir | https://insect-caught-game.vercel.app/

- Developed an engaging and interactive browser-based game using HTML, CSS, and JavaScript for game logic, enhancing gameplay experience.
- Designed a responsive user interface with multiple screens for gameplay, including insect selection and score tracking.
- Implemented features such as randomized insect movement, a timer, and a dynamic scoring system to enhance user engagement and difficulty.

Technical Skills

- **Programming Languages:** Java (Core Java), JavaScript, HTML, CSS.
- Frameworks & Tools: Bootstrap.
- Version Control & Tools: Git, GitHub, REST APIs
- Soft Skills: Communication, Team Collaboration, Problem Solving.

Certifications

- Java Programming Specialization (Naresh It December 2024)
- **Java Complete course for beginners** (Udemy October 2023)

Education

• Bachelor of Engineering in Computer Science and engineering Babasaheb Naik Collage of Engineering Pusad, India.

(2021 - 2025)

• Athar mirza high school, kali(D.K) 12th Grade (HSC) – 79.82% (2021) • Athar mirza high school, kali(D.K) 10th Grade (SSC) – 69.00% (2019)

Achievements

- Secured an internship at Zidio Development for outstanding web development skills.
- Successfully implemented innovative features in projects, receiving positive feedback from peers and mentors.
